TITLE	Profiles of Alaska's Public School Districts. Fiscal Year 1989.
INSTITUTION	Alaska State Dept. of Education, Juneau.
PUB DATE	Jan 90
NOTE	130p.
PUB TYPE	Reports - Evaluative/Feasibility (142) -- Statistical Data (110)
EDRS PRICE	MF01/PC06 Plus Postage.
DESCRIPTORS	Administrator Characteristics; Elementary Secondary Education; Enrollment Rate; *Profiles; Public Schools; *Regional Characteristics; School Demography; *School Districts; School District Size; School District Spending; *School Statistics; Student Characteristics; Teacher Characteristics; Teacher Distribution
IDENTIFIERS	*Alaska

ABSTRACT

This publication summarizes data gathered by Alaska's State Department of Education on school operations, facilities, programs, students, and personnel in each of Alaska's school districts. For each of the 55 districts that existed in 1989, the information is grouped into six subject headings: background, operating revenues and expenditures, funding community summary, student characteristics, staff ratios and statistics, and staff and student demographics. The background data include the district's size, population, unemployment, and percentage of adults with a high school diploma. The operating revenues and expenditures are financial characteristics about each district's general operations. The funding community summaries show the number of buildings in a district, grade levels served, and enrollment. Student characteristics include numbers of students enrolled in the following programs: gifted/talented, special needs, migrant, bilingual, Chapter 1, and vocational education. Staff ratios and statistics show numbers of teachers, instructional aides, and administrators in a district. The section also includes average salaries, average age, student ratios, and average years of experience for each group. The demographics section gives characteristics of teachers, aides, administrators, students, and high school graduates, broken down into gender and ethnic groups. All the data gathered for the publication are from school district reports or from state and federal sources. This document also contains state totals, a glossary of terms, and a listing of Alaska's school district offices and superintendents. (TES)

District Directory 127

INTRODUCTION

The Alaska Legislature in its Fiscal Year 89 authorization, directed the State Department of Education to prepare annual profiles on each school district. In its directive the Legislature wrote:

> *It is the intent of the Legislature that the Department of Education will implement a data management system including but not limited to profiles of school districts which include data on school operations, facilities, programs, students and personnel.*

In compliance, the Department assembled this publication which will be updated annually. This information is intended to add to the statewide knowledge base and understanding of education in Alaska.

The summary of data in this publication represents only a small portion of the statistics contained in the Department's computerized data management system. The District Profile Data Base is a compendium of information gathered from numerous sources. For example, the financial data is gathered from the audited financial reports submitted by school districts in November following each school year. The staff and student data is gathered from enrollment and staff reports submitted by each school district annually, in compliance with state and federal requirements. Other background data, such as employment statistics and population, are gathered from official state and federal government sources.

The data in this publication are displayed under six major subject headings within each district:

-Background
-Operating Revenues and Expenditures
-Funding Community Summary
-Student Characteristics
-Staff Ratios and Statistics
-Staff and Student Demographics

The reader should note that the Aleutian East School District is not included in these profiles as it was not an established school district in FY 89. It will be included in next year's report. Correspondingly, Sand Point and King Cove are included as separate districts in these profiles, which was their status in FY 89 prior to being included in the new Aleutian East School District.

CONTENT

The Profile format is a two page display of data on each of fifty-five districts grouped into six subject headings:

- -Background
- -Operating Revenues and Expenditures
- -Funding Community Summary
- -Student Characteristics
- -Staff Ratios and Statistics
- -Staff and Student Demographics

Preceding the district profiles is a display of state averages and totals in a similar format.

Below is a sample of the format used to report each district's profile. On succeeding pages sections of the profile are enlarged and annotated to facilitate the reader's understanding of the profiles.

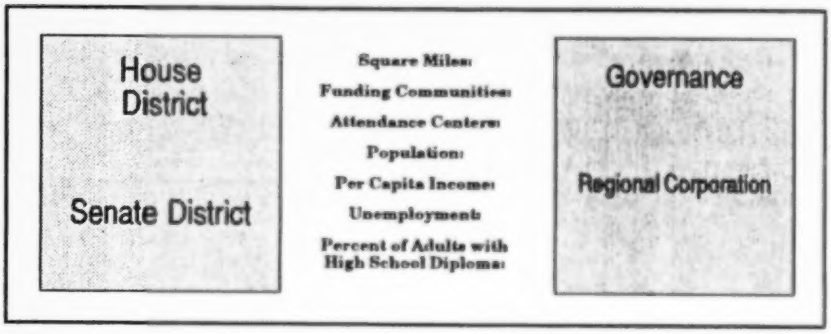
BACKGROUND

The background area at the top of the first page provides background on each of the school districts. Some items, such as square miles, originate with state sources while others, such as population, originate with the Federal Bureau of the Census.



House District

Senate District

Square Miles:
Funding Communities:
Attendance Centers:
Population:
Per Capita Income:
Unemployment:
Percent of Adults with High School Diploma:

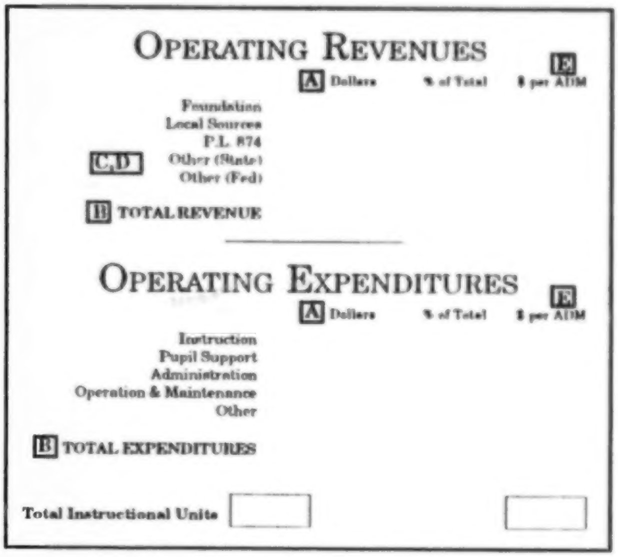
Governance

Regional Corporation

In those instances where data were not available at the district level, such as unemployment statistics, per capita income, and adults with a high school diploma, the policy has been to use percentages and averages from the region of the state in which the school district is located.

OPERATING REVENUES AND EXPENDITURES

Centrally displayed on the first page of each district's profile is the 1988-89 audited financial data.



OPERATING REVENUES

	A Dollars	% of Total	E $ per ADM

B TOTAL EXPENDITURES			

Total Instructional Units

A. The figures displayed are 1988-1989 audited Operating Revenues and Operating Expenditures only. These data depict the financial characteristics of each district's general operations and show the costs to operate schools in the district. Audited data are available six months after the close of each school year. The 1989-1990 data will be available in the fall of 1990 and will form the basis of next year's report.

B. The totals do not include federal supplemental grant funds or restricted use funds such as the Migrant Program, Chapter I, or Handicapped Program funds, because these funds are supplemental to a district's normal operations and are restricted in their use.

C. Those districts reporting revenue fund "transfers" have had those sums included in the "Other (State)" revenue category.

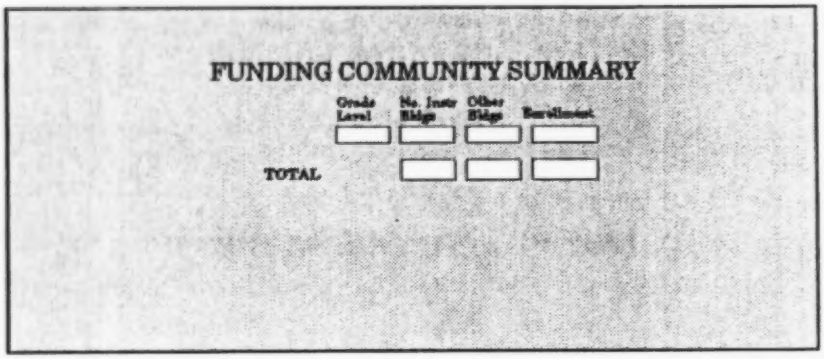
D. City and borough district "Tuition" totals are included as "Other (State)" revenue.

E. The "$ per ADM" column represents Average Daily Membership in grades K-12 only. Districts that included expenditures for pre-elementary or other students outsides these grades are not being given credit in the ADM for the numbers of those students. Therefore, expenditures per student in those districts are slightly inflated.

A detailed description of each of the Revenue and Expenditure categories, can be found in the glossary following the profile series, beginning on page 123.

FUNDING COMMUNITY SUMMARY

Funding Communities are financial reporting agencies set up under the Alaska Administrative Code as part of the Public School Foundation Program.



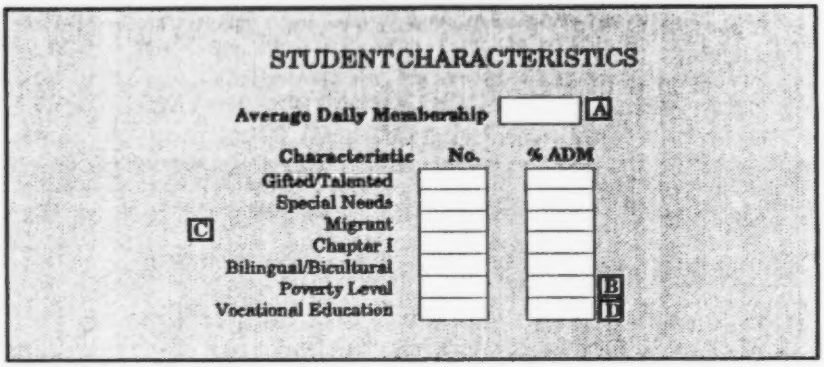
FUNDING COMMUNITY SUMMARY

	Grade Level	No. Instr Bldgs	Other Bldgs	Enrollment
TOTAL				

In this section of the report, district operated correspondence study programs are listed as separate Funding Communities, so that their enrollments could be shown accurately. However, according to state law, Centralized Correspondence Programs are assigned to the attendance center with the highest Average Daily Membership. Accordingly, the total count of funding communities appearing in the "Background" section does not include the correspondence programs.

STUDENT CHARACTERISTICS

Student data are reported in several different ways.



STUDENT CHARACTERISTICS

Average Daily Membership ☐ A

Characteristic	No.	% ADM	
Gifted/Talented			
Special Needs			
C Migrant			
Chapter I			
Bilingual/Bicultural			
Poverty Level			B
Vocational Education			D

A. The Average Daily Membership number at the top of the second page of the profile may differ from the total enrollment listed in the previous Funding Community Summary section. Average Daily Membership (ADM) is based on an average of counts taken each day over a prescribed twenty day period while enrollment is a single day count.

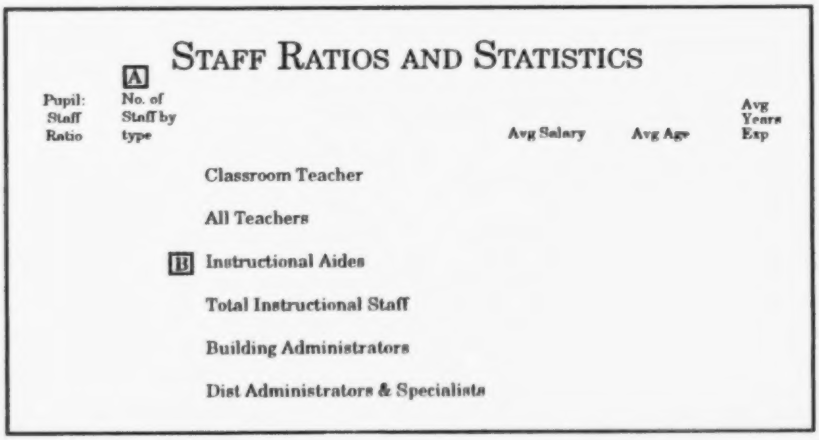
B. Poverty level data are not universally available for all districts. Most poverty data is obtained from the number of students who qualified for the Federal Government's free and reduced lunch program. When a District did not participate, a poverty estimate was obtained, if available, from the Department of Education Chapter I records.

C. The item "Special Needs" is a total of those students reported by the districts in three classifications: "Resources", "Self Contained", or "Intensive".

D. Vocational Education is offered only in grades nine through twelve and consequently, is shown as a percentage of the enrollment for those four grades only.

STAFF RATIOS AND STATISTICS

Centrally displayed on the second page are ratios and statistics relating to the district and school staff.



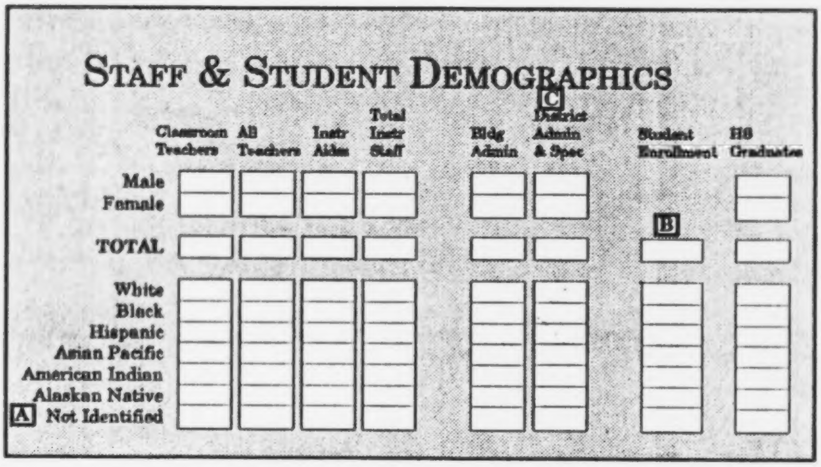
STAFF RATIOS AND STATISTICS

Pupil: Staff Ratio	A No. of Staff by type		Avg Salary	Avg Age	Avg Years Exp
		Classroom Teacher			
		All Teachers			
		B Instructional Aides			
		Total Instructional Staff			
		Building Administrators			
		Dist Administrators & Specialists			

A. Staff totals are displayed as Full Time Equivalents (FTE). Often a staff member will work part time in some positions which result in some FTE numbers appearing as fractions, even in such areas as sex and ethnicity.

B. The definition of "full time" may vary from district to district, particularly for Instructional Aides. For example, some districts define a work day as a five and a half hour day while others define a work day as an eight hour day.

STAFF AND STUDENT DEMOGRAPHICS



STAFF & STUDENT DEMOGRAPHICS

	Classroom Teachers	All Teachers	Instr Aides	Total Instr Staff	Bldg Admin	District Admin & Spec	Student Enrollment	HS Graduates
Male								
Female								
TOTAL								
White								
Black								
Hispanic								
Asian Pacific								
American Indian								
Alaskan Native								
Not Identified								

A. The combination of student and staff demographics includes a category "Not Identified" which refers to the unavailability of ethnic information for these individuals.

B. The student demographics shown here, under the column "Student Enrollment" are head counts, while the "Total" is Full Time Equivalents. Therefore there may be slight variations in totals.

C. The term "District Administrators and Specialists" includes Superintendents and Assistant Superintendents, as well as other staff such as counselors and librarians who provide support services.

Beginning on page 123 is a glossary of terms listed in alphabetical order. The reader is encouraged to refer to this glossary for additional explanation of data elements included in these profiles.

METHODOLOGY

All data gathered for this publication were either submitted to the Department of Education in official reports from the school districts, or in the case of background information, taken from reports published by official State and Federal sources. Therefore, this data base is a compendium of data originally gathered elsewhere and brought together for this display.

Columns containing percentages have been computed from the figures provided to the Department by the school districts, but may not total 100% due to rounding.

Not every district participates in every program displayed here. Therefore, some districts have areas of blank data fields, which indicates either the district does not participate in the program or did not report the particular data.

GLOSSARY OF TERMS

Administrative Expenditures

This category includes such items as salaries for support staff, communications, some employee benefits and travel.

Adults with High School Diploma

The U.S.Bureau of Census publishes this data as "% of persons 25 and over completing four years High School or more", from the 1980 Census. The State Department of Labor's most recent estimates indicate that Alaska's statewide high school completion rate may now be as high as 90.5%.

All Teachers

This term refers to a summary of those certified teachers in remedial or consulting roles to meet special needs of students, itinerant teachers or visiting teachers and regular classroom teachers. Information reported is based upon full time equivalents.

Area Cost Differential

A ratio adjusting for the differing costs of operation between the various school districts, as codified in 1987 in AS 14.17.051.

Attendance Centers

Attendance Centers are defined in Alaska Education Regulations as "a school operated by a district, serving one or more grade levels of students..." (4 AAC 09.105).

Bilingual/Bicultural Students

The number of students who are determined by a district to be bilingual as required by Alaska State Regulation 4 AAC 34.050 and reported to the Department of Education in early November of each year.

Building Administrators

Generally the Principals and Assistant Principals.This category also includes a pro-rata portion of those staff categorized as Head Teachers. Their numbers are reported to the Department of Education in the Staff Accounting Report due to the Department of Education by October 15 of each year.

Chapter I Program Students

Students enrolled in a program to meet the needs of economically deprived and underachieving children, or of neglected or delinquent children. Their numbers are reported by individual districts by the end of each fiscal year.

Classroom Teachers

A regular, certified classroom instructor with attendant duties as described in the instructions for the Staff Accounting Report due to Department of Education from each District by October 15 of each year. Information reported is based upon full time equivalents.

District Administrators and Specialists

School district officials and special services personnel such as counselors and librarians,involved in operating and supporting the schools. These data are reported to the Department of Education by October 15 of each year in the Staff Accounting Report.

Election District

The State of Alaska is divided into fourteen Senate election districts and twenty-seven House election districts creating seats for forty State Representatives and twenty State Senators.

Foundation Revenues

Those revenues accruing to the school district from the State Government and based on a formula which guarantees each district $60,000 per instructional unit, taking into consideration Federal sources, local contributions and area cost differentials. Instructional Units are defined in Alaska Statutes 14.17.041-47. These data are available from District audits as submitted to the Department in early November of each year.

Funding Communities

Each school district is divided into funding communities, which are financial reporting entities as defined by Alaska Administrative Code (AAC) Title 4 09.005 which gives consideration to centralization and to age and grade levels involved. In this report, district operated correspondence study programs are listed as separate Funding Communities although according to state law they are assigned to the attendance center with the highest Average Daily Membership. The total count of funding communities appearing in the Background section does not include the correspondence programs.

Gifted/Talented Students

Those students identified as exceptional, as defined in AS 14.30.350, and warranting special advanced instruction, as required in 4 AAC 52.140 and reported for Foundation funding.

Governance

Alaska is comprised of a mixture of governing bodies, all of which affect the school districts. There are eleven Organized Boroughs, three Unified Home Rule Municipalities, one hundred forty-seven Incorporated Communities and twenty-one Regional Education Attendance Areas.

High School Graduates

Those students receiving a High School Diploma or a certificate of completion during the school year.

Instructional Aides

These are classified personnel in teaching assistance roles, and these numbers include those positions funded by supplemental grants and restricted use funds. They are reported to the Department of Education in the Classified Staff Report due on October 15 of each year.

Instructional Expenditures

Instructional Expenditures include those expenditures for: Regular Instruction, Vocational Education, Correspondence Study, Special Education, Gifted and Talented Education and Bilingual-Bicultural Education. This category excludes categorical funds restricted in use.

Instructional Units

This basic unit of measure upon which the State School Foundation Program funding is based is calculated from student Average Daily Membership identified for grade levels K through 12, with additional weighting for vocational, special education, gifted/talented and bilingual programs, according to AS 14.17.041-47.

Local Sources Revenue

The city and borough school districts are, under State law, required to contribute the lesser amount of: (1) the equivalent of funds generated by a four mill tax levy based on the full and true value of the taxable real and personal property in the school district; or (2) 35 percent of a school district's basic need from the preceding school year. These data are available from the District audits submitted by individual districts to the Department in November of each year.

Migrant Education Students

Students whose education has been disrupted by physical displacement, as defined by federal program regulations. Districts report to the State Program Director each fiscal year.

Native Corporations

There are twelve private Regional Native Corporations. They were created in 1971 by the Alaska Native Claims Settlement Act.

Operations and Maintenance Expenses

Operations and Maintenance of Plant expenses includes such items as electric, janitorial services, painting and repairs.

Other Expenditures

Those expenditures not classified in the above mentioned accounts which included Community Services, Fund Transfers and Pupil Activities.

Other (Federal) Revenue

That Federal Revenue other than PL 874 revenue, such as indirect cost revenue for administration of grants, as described in the Chart of Accounts and reported by the districts, in their annual audit to the State Department of Education in early November of each year.

Other (State) Revenue

State revenues which cannot be classified in the nine other state revenue categories as described in the Chart of Accounts and include such items as legislative grants,etc. These data are reported by the districts in their annual audits received by the Department of Education in early November of each year.

Per Capita Income

The U.S. Bureau of Economic Analysis estimates per capita income data in April, using U.S. Census Bureau population estimates for the population component and income data from the Internal Revenue Service and other wage and salary information sources, such as the Current Population Survey and economic models. Census area per capita income levels have been applied to the school district level where necessary. Current information is a derivative of 1980 census data.

Percent of ADM

Percent of Average Daily Membership is derived by dividing the Full Time Equivalent student numbers for that category of service by the Average Daily Membership.

PL-874 Revenue

Federal Law PL-874, Impact Aid to Education, provides federal funds to school districts for children of parents living and/or working on federal property as an "in lieu of local tax revenue", including land conveyed to Native Corporations under the Alaska Native Claims Settlement Act. Under Federal law the State may deduct a portion of these revenues from the State's aid to school districts so long as the State insures equality in funding to all students across the state. These data are available from the District's audit submitted by each individual district to the Department in November of each year.

Population

The State Department of Labor generates population estimates annually in September, based upon the 1980 U.S.Census, and modified by such sources as school enrollments, Internal Revenue Service, migration data, Vital Statistics and Alaska Permanent Fund data.

Poverty Level Students

The number of students who qualified for the federal free and reduced lunch program, as reported to the State Department of Education in November. Because not all districts choose to participate in the program, a poverty estimate obtained from Department of Education Chapter I records is used, when available, for non-participants, and in some cases supplemented by best estimates supplied by the district.

Pupil Staff Ratio

This number is computed by dividing the student Average Daily Membership by the number of Full Time Equivalent positions in each category, as reported to the Department in the Staff Accounting Report.

Pupil Support Expenditures

This financial total includes the expenses incurred in pupil support activities such as school office, health, library and student activities -- usually not related to direct instruction.

Special Needs Students

The total number of students who are identified in need of special education assistance as defined in 4.AAC.52.130 and grouped in three Special Education categories: Resources, Self-Contained and Intensive, from the School Foundation Report due to the Department in November of each year.

Staff Average Years Experience

Experience for teachers and administrators refers to their experience in that category only, as reported by each individual school district.

Staff Demographics

Staff data on sex and ethnicity is reported in Full Time Equivalents. This information is provided by districts to the Department by October of each year.

Student Average Daily Membership

Average Daily Membership is the average number of students enrolled over a twenty day period on a full time equivalent basis, as specified by AS 14.17.160. Reported to the Department in the District's initial Foundation Report by the end of the second week following the fourth Friday in October and updated at mid year if an increase in enrollment has occurred.

Student Demographics

Student race and ethnicity is extracted from the annual Student Ethnicity and Enrollment Report prepared by individual districts and reported to the Department of Education by October 15 of each year.

Student Enrollment

This figure refers to Full Time Equivalents (FTE), and is reported to the Department of Education by theDistrict via the Student Enrollment and Ethnicity Report as of October 1st of each year followed by a final report at yearsend. (AS.14.17.080)

Unemployment Rate

The Unemployment Rate is derived from monthly estimates published by the Alaska Department of Labor by Census Area. School Districts are assigned the rate for the applicable census area. Current information is based on 1989 data.

Vocational Education Students

Students in a secondary school training program designed for employment or advancement in an occupation that requires less than a baccalaureate degree. (4 AAC 51.390)
